

## Chemistry at the Races: The Work of the Horseracing Forensic Laboratory

Filesize: 3.35 MB

### ***Reviews***

*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).

## CHEMISTRY AT THE RACES: THE WORK OF THE HORSERACING FORENSIC LABORATORY

[DOWNLOAD](#)

Royal Society of Chemistry. Paperback. Book Condition: new. BRAND NEW, Chemistry at the Races: The Work of the Horseracing Forensic Laboratory, Maria J. Pack, Colin Osborne, Ted Lister, This resource demonstrates how a combination of modern techniques is used to ensure that horseracing is both fair and prevents abuse of the horses involved. Based on the work of the Horseracing Forensic Laboratory (HFL) located near Newmarket in the UK, the book comprises five sections of student material. First, an overview of the work of HFL is presented, followed by sections on immunoassay, metabolism and chromatography. Teachers' notes are also included. Following the explanatory text are questions, which assist with understanding and also illustrate real-life applications of the chemical techniques encountered at school. Chemistry at the Races is designed mostly for ages 16+, but some material is also included for younger students. It is an invaluable resource for teachers, enabling them to demonstrate an up-to-date and interesting context for their work.
