Book Condition: New. Publisher/Verlag: Springer, Berlin | This series of monographs represents continuation on an international basis of the previous series MINERALOGIE UND PETROGRAPHIE IN EINZELDARSTELLUNGEN, published by Springer-Verlag. The voluminous results arising from recent progress in pure and applied research increase the need for authoritative reviews but the standard scientific journals are unable to provide the space for them. By their very nature, text-books are unable to consider specific topics in depth and recent research methods and results often receive only cursory treatment. Advanced reference volumes are usually too detailed except for experts in the field. It is often very expensive to purchase a symposium volume or an "Advances in . . ." volume for the sake of a specific review chapter surrounded by unrelated chapters. We hope that this monograph series will bypass these problems in fulfilling the need. The purpose of the series is to publish reviews and reports of carefully selected topics written by carefully selected authors, who are both good writers and experts in their scientific field. In general, the monographs will be concerned with the most recent research methods and results. The editors hope that the monographs will serve several functions, acting as supplements to existing text-books, guiding research workers, and providing the basis for advanced seminars. March 1971 W. VON ENGELHARDT, Tübingen T. HAHN, Aachen R. Roy, University Park, Pa. J. W. WINCHESTER, Tallahassee, Fla. P. J. WYLLIE, Chicago, Ill. Contents 1 I. Introduction Sketch of Trollheimen 4 Acknowledgments . . | I. Introduction.- Sketch of Trollheimen.- Acknowledgments.- II.
