Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

You'll learn that Frederic Chopin had his heart removed before burial, due to his grave fear of being buried alive. Sergei Rachmaninoff hated the sound of his own music and despised performing it. Gustav Mahler was rarely invited to dinner parties because he would eat nothing but whole wheat bread and apples. Haydn's head was stolen by would-be phrenologists who hid his skull in a specially made black box. Hector Berlioz hatched an intricate plan to kill his former fiancee, her lover, and her mother with a pair of double-barreled shotguns - while wearing women's clothing. Dmitry Shostakovich was the first composer to have a piece sung by an astronaut in outer space. And much more!.
