Excerpt from The Thornton Romances: The Early English Metrical Romances of Perceval, Isumbras, Eglamour and Degrevant, Selected From the Manuscripts at Lincoln and Cambridge About the year 1440, or perhaps somewhat earlier, Robert Thornton, a native of Yorkshire, residing in the neighbourhood of Oswaldkirk, compiled a goodly volume of English treatises or translations, embracing the various subjects of history, romance, religion, and medicine. Nor must such a medley appear incongruous to the modern reader. At a time when the library of the University of Oxford is said to have contained no more than two or three hundred chained books, a folio volume which could afford amusement in hall, instruction at other times, religious information and perhaps consolation to the sick, and with all be produced as a medical authority for nearly every ill that flesh is heir to, was not to be despised by a family resident in a remote part of the country, where, in all probability, literary luxuries were not readily accessible. It must not, however, be supposed that Robert Thornton was the author of this miscellany. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
