By Wilbur S Jackman

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Number Work in Nature Study, Vol. 1: Part I The aim of this book, briefly stated, is to show how pupils may be taught to secure, through mathematical processes, definite, accurate, and useful results in the study of elementary science. The work does not contain arithmetical problems, such as may be found usually in the text-books, but it is to be regarded, rather, as a series of formulas which are to be applied in the study of a particular subject, as the common sense and judgment of the teacher may dictate. The purpose of the book differs so radically from that of the arithmetics used in the schools, it becomes necessary to call the especial attention of the teacher to the discussion of the underlying principles, found in the introductory chapter, and to ask a careful consideration of a few important details of method. Throughout the work, wherever it is possible, individual investigation on the part of the pupil is presupposed; not an investigation of the subject of number or of numerical processes, but of...
